Tessier Limited has recently successfully completed the **renewal** of its **ISO 9001-2015 certification** for a period of 3 years, renewable each year with a maintenance audit, and for a 20<sup>th</sup> consecutive year.

The **recertification** of its **management** and **quality assurance system** demonstrates the commitment of the management and the work done by the entire team of Tessier to **meet** the **requirements** of our **customers** in order to maintain the highest standards of quality and to be a leading partner.

This audit is also beneficial for the organization, because it's the occasion of a great opportunity to renew and ensure a process of continuous improvement.

On the North Shore, Tessier's division has been distinguished by the quality of its operations for more than 70 years and is closely involved in the development of major mining projects. She developed a wide range of skills always aiming to improve the quality of its services, ranging from *turnkey* service from lifting plan to on-site supervision with cutting-edge technology cranes.

Last June, Tessier Limited was also awarded **Longevity Award by the Canadian Crane Rental Association for its 20<sup>th</sup> annual membership.** This award is given to member companies from Canada and the United States based on their date of entry. Tessier is also a member since the 2<sup>nd</sup> year of the founding of the association.

The Canadian Crane Rental Association is the voice of a crane industry that wants to be stronger and safer. Its purpose is to provide a social and educational forum to advance safety and professional expertise to the Canadian Crane Industry.
